

# MBA Gas Strut 'Manual Bin Lifter'

*Tipping waste from one bin into another is easy*

The problem of emptying wheeled 240L/120L bin into a dump master is solved.

Manual Bin lifter gives 25kgs of assisted lift. Using compressed gas during the lifting process makes for a safe emptying of waste into the larger bulk type bin or skip.

## FEATURES

- Compressed gas struts to assist lift
- Easily attached to steel skip or bulk bin
- Simple connection and quick release of wheelie bins
- Provision to padlock mechanism
- Provision to padlock mechanism
- Easily transported as a four-wheel trolley with bin attached
- Tipping height up to 1.3 m
- Powder coated for protection all weather conditions
- Dual catch and linkage for both:
  - ❖ 240 Litre MGB
  - ❖ 120 Litre MGB
  - ❖ Adaption for smaller bin on request

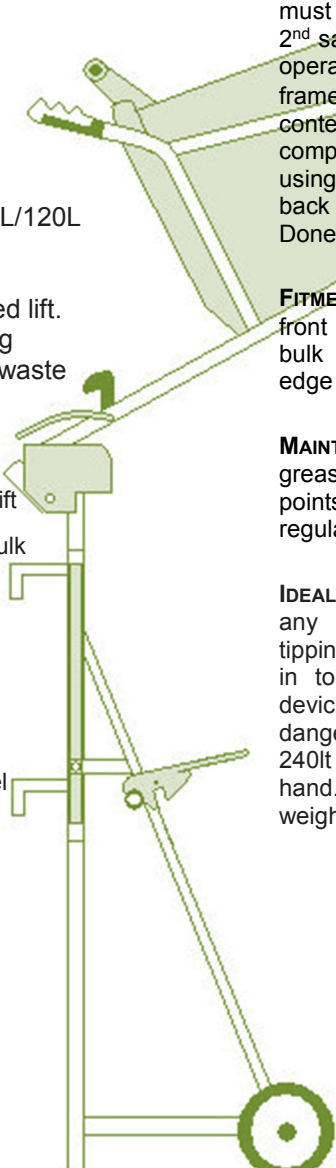

**POWER** – Powered by two gas struts, the operator lifts the load with assistance allowing the equipment do the hard work. All parts can be easily removed from the unit for maintenance

**OPERATION** – Place the bin onto the swing frame and secure the bottom of the bin on to its locator pins. Once locked into position unlock the padlock provided. There is a 2 stage safety latch system. The operator stands to the side of the bin lifter and must deliberately release the 1<sup>st</sup> and 2<sup>nd</sup> safety latches and lift the lever to operate the mechanism. The swing frame will ascend to 48° to empty the contents of the bin and once complete, pull the swing arm down using the handles provided and snap back into the safety lock position. Done

**FITMENT** – Wheel the bin lifter to the front of the dumpster and slide both bulk bin catches over the top front edge and you're ready to lift!

**MAINTENANCE** – Small amount of grease should be sprayed onto pivot points and locking mechanisms regularly

**IDEAL FOR** - Schools, businesses or any waste disposal that requires tipping of contents from a smaller bin in to a bigger bin. An innovative device designed to remove the danger of handling / tipping 120lt & 240lt plastic mobile garbage bins by hand. The frame will safely tip a weight up to 25kg
