

MBA 120 Litre Bin

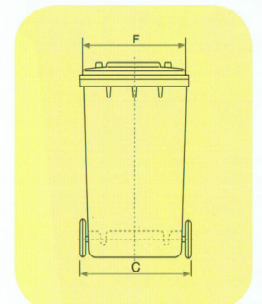

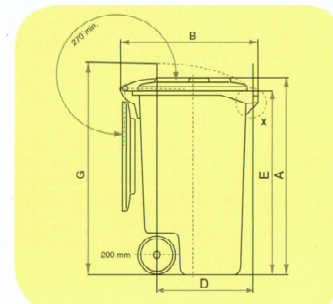

This old school design won't let you down

The story behind the 120 litre bin is that was originally designed using a 240 Litre bin. This meant that a bin 50% smaller was going to be twice as strong due to the strength of the larger version.

Such a simple design only needed to be complimented with interchangeable spare parts and the ability to be reused time and time again for different uses.

Talk to us today about 120 litre bin

The MBA 120 Litre Bin is the original old school robust design. MBA 120 Litre Bin is strong and impact resistant, has smooth surfaces, UV colour stabilization, and is far stronger than virtually all of the cheaper alternatives that simply will not withstand commercial type uses.

Compatible for Flip Top Hood as well as document slot and bottle rosette if needed. The MBA 120 Litre Bin is another classic versatile favorite and will be around when the cheaper alternatives give up the ghost.
